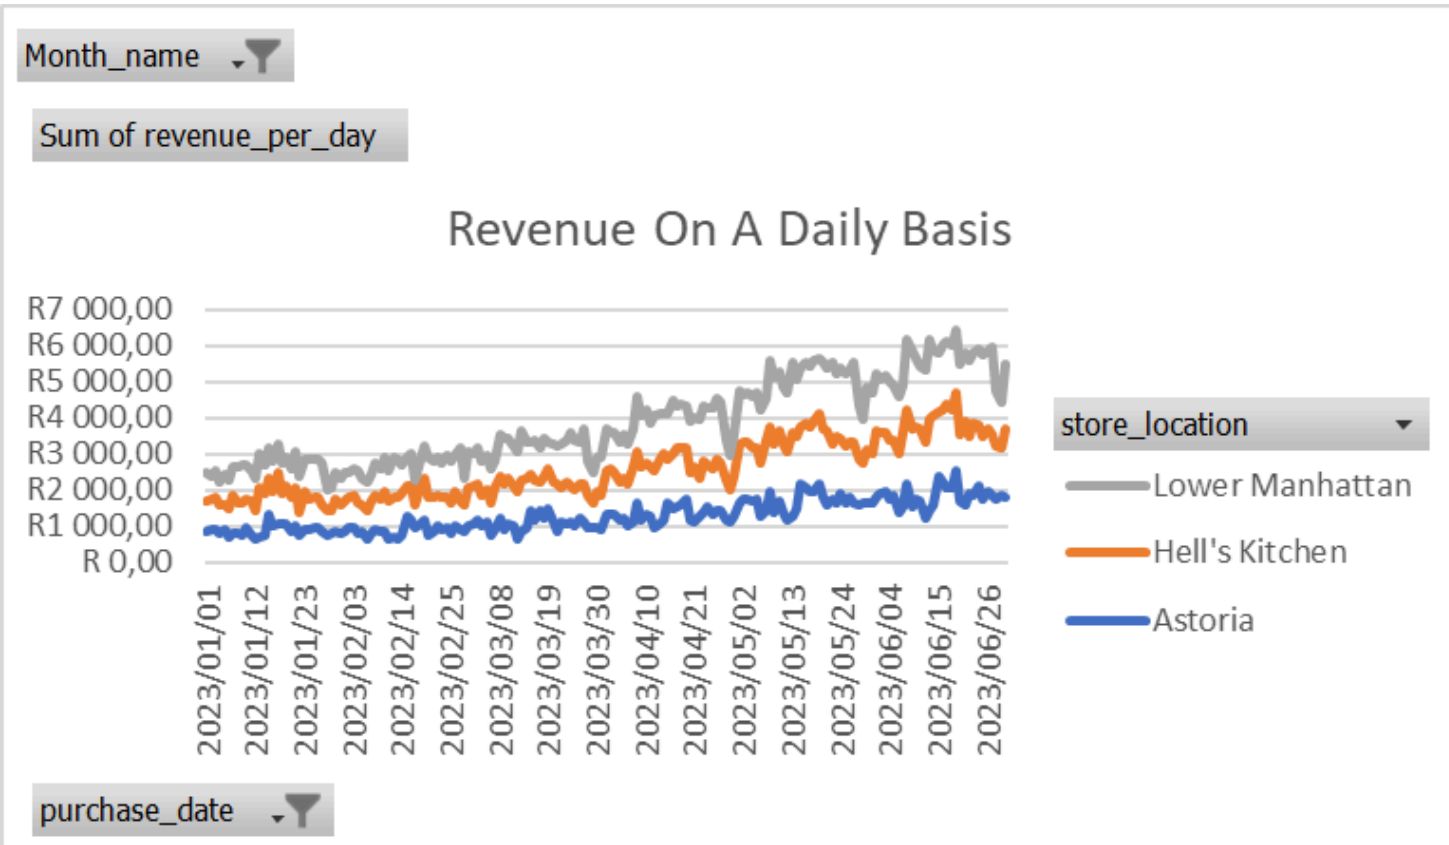
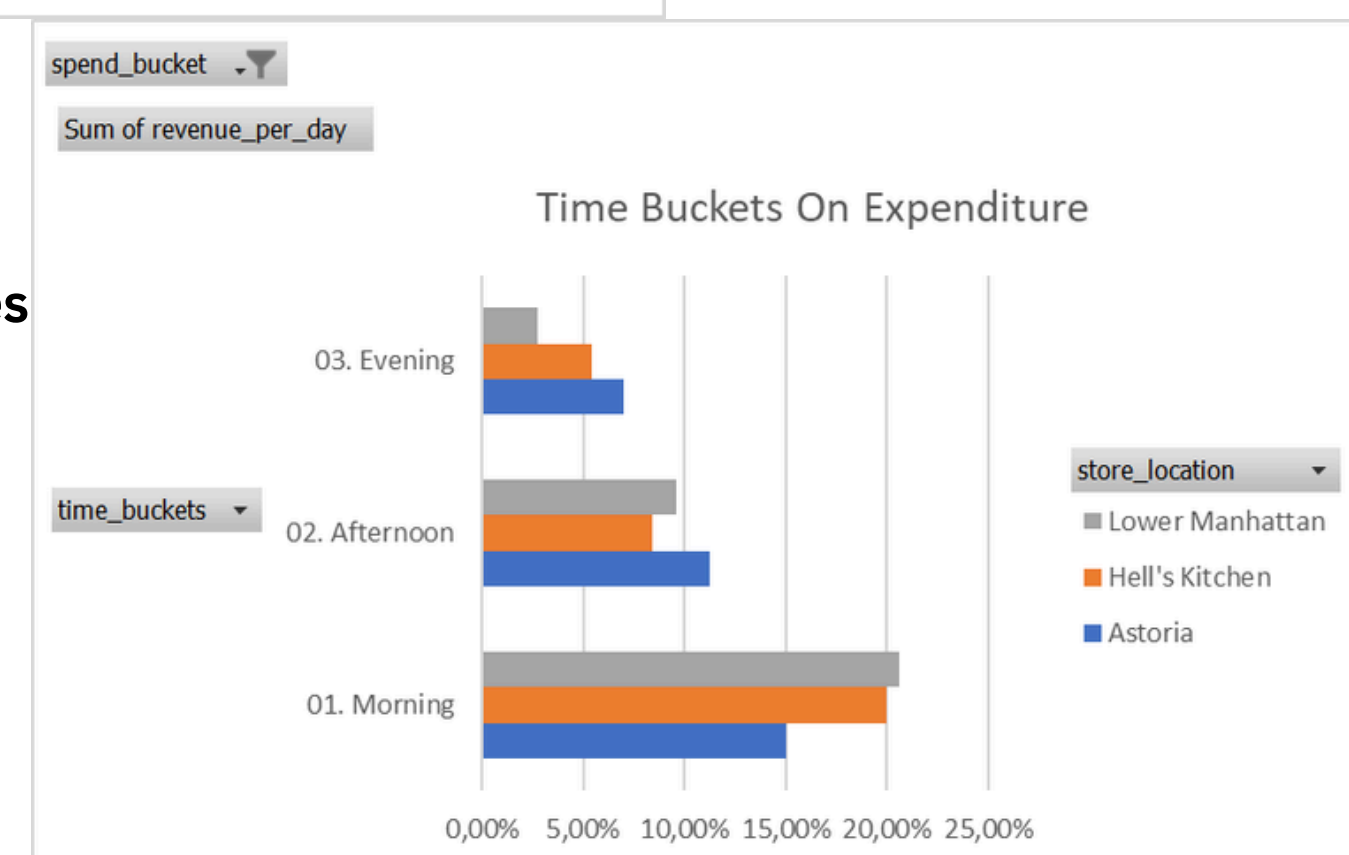
PRODUCT ANALYSIS Coffee out sold all other products by 38.8% across all stores with Tea trailing behind it by 30.2%. Packaged chocolate & Coffee beans should be discontinued or sold as combined items to maximise revenue.



As shown in graph. Bright Coffee needs to focus on evening sales to help drive sales up.



CLOSING REMARKS BRIGHT COFFEE SHOP should consider other products such as fizzy drinks or water in other locations to maximise sales especially during the summer time as profits clearly rise drastically during the period of Jan- Jun by almost 50%
